

Personalized breast care, comfort,  
and results you can trust.

Coosa Valley Medical Center recently invested in your health with state-of-the-art 3D digital mammography technology.

We chose Fujifilm's ASPIRE Cristalle system, because it:

- ◇ provides brilliant image quality for results you can trust.
- ◇ adapts to different breast types and can be used for everyone.
- ◇ has innovative technology that uses low X-ray dose.
- ◇ is specially designed to be more comfortable for you.
- ◇ is easy to operate, so we can focus on you with personalized care.

We are making mammogram easier for you by investing in the latest, most comfortable high-technology equipment.
